History

~ Tales from the Snake ~

The Snake

Jesus knew with his *vast* foreign Knowledge on Medicine that he could become a very important Person in Jerusalem by selling his Services to the wealthy Families. This was **the unambiguous Message of the Snake** coming from the Time Jesus was wandering in the Desert before starting his three Year Journey. The Snake boost him *continually* to give *freely* to all so his Popularity can increase so that his Value as a great Preacher can reach new Heights so that after his Journey to spread Joy, when an incurable Sickness can be healed by him with ease, he could charge a large Amount of Gold to his Clients in desperate need of a miracle healing Treatment.

~ The Ego ~

2 Jesus's Quest to give limitless Powers to those who open their Hearts for better Days will never End:
~ This is the New World Order ~

1 Stepping back two Feet from the Snake, **Jesus then had an Epiphany**: The **Snake** was in fact **Jesus's Ego** telling him **to improve non-stop his Game** to beat any Opponent that would dare challenge him! The Snake wanted Jesus to reach the State of Living God in the Eyes of others. Jesus then took his long travelling Stick and stroke with Force this **treacherous Snake** to make it flee so he never comes back!! Jesus now understood his Goal: His valuable Knowledge must now be used to help others reach his own State of Well being and his Endeavor to improve his Life and those of his Family Members will be realized the more he gives to those that Reach for him!

~ Teaching and Respect ~

2 This newly fred Man had to remain **discreet** on his enlightened Discoveries that made a benevolent Change in the Minds of those that were suffering: **Teach one Step at a time** his Gifts coming from the Wisdom of the Sun, our God. The Goal of those in Power was to avoid any ***unpredictable* Revolution** that can overthrow the Crown and give *even more* suffering to all country Citizens. **Mutual Respect** for the Crown and for the Citizens was the main Success of the AncientRoman Grandeur!

3 Our Ancestor Cowmen also carried these five Elements at all times while travelling the Country.

1 In a far away time, all dungeon Prisoner were given *once a Day* **five Elements** essential for their Survival: A [1]Loaf of Bread, one salty dried [2]Sausage, one medium-sized dried Chunk of [3]Cheese, a Jug of [4]Water and finally a small Cube of [5]Soap. With these **five Elements**, a Prisoner can live for Years before the King gives him back his Freedom for being respectful to the *established* Hierarchy of the Kingdom.

Psychology

~ The Warning System ~

1 Inside each of us, we have what we call a **Warning Awkwardness System: The WAS**. This System is an Mechanism that whispers to us to be aware of *possible* unpleasant *upcoming* Situations. Often times in a Conversation with Friends, you may disagree on your Subject and that's OK. Your WAS will analyze your upcoming Thoughts before sending it through your Voice. Listen to its Answer and it will give you the OK to offer your Idea or it will tell you to rephrase your Thought to not infuriate your Neighbor. The WAS's Answer can *simply* tell you to remain Silent and keep on listening to your golden Friend's Argumentation!

2 One of the best Warnings that you should be aware of is your Position in Space. When you move, your WAS will say to you: "Make sure you are taking the right Bus to go to Work and do not forget to look behind you to check if you do not forget anything before you leave". Trust your Warning System to remain on a good Path for the Day!

~ The golden Handbook ~

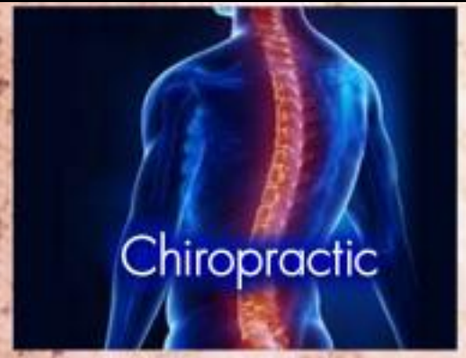

As his DiamondParents, **Jesus** was well educated. He knew to read and write in many foreign Languages. Escaping from the Wrath of HerodTheGreat that wished for the Golden Child Jesus to perish, the Family fled to Egypt for many Years. The Family gained valuable Knowledge in Egypt. Jesus read the Ways of the great egyptian Philosophers and learned **Bone Setting Practices** from CrucialDocuments. To keep all these innovative Ways to cure the Sick, Jesus copied this Knowledge in a **Handbook** that he carried with him at all Time for his future Journey to awake the Souls to the Good News.

~ A Miracle solved ~

1

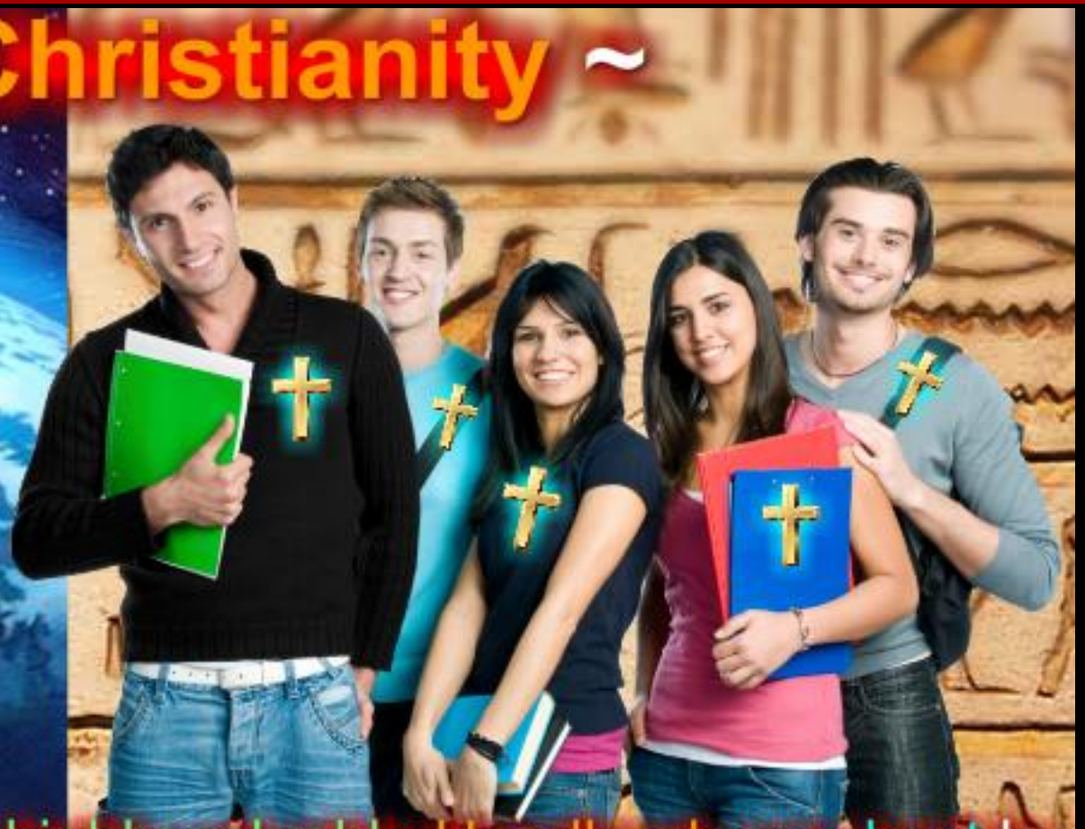

2 As young Adult, Jesus made *numerous* Trips back to Egypt to rejoice with his many dear egyptian Friends and **to keep on learning Knowledge** from this great mediterranean *african* Culture.

This Handbook was very handful when a Sick came to Jesus and ask him to heal his Paralysis. Analyzing the Patient's Symptoms, Jesus relied on his sharp Memory of the great egyptian Doctors Teachings to find the Solutions to heal the Sick but if he did not remember all the correct Sequences to replace the Bones in a valid Posture, Jesus simply flipped a *few* Handbook Pages to search for the right Bones to reset in good Position so the good will Believer can be free from his Paralysis. Jesus was a very knowledgeable Chiropraticien. **This is known as the Miracle healing the Paralytic!**

~ The Birth of Christianity ~

After the Departure of Jesus from Earth, his highly valuable Handbook was kept by his Disciples. So the Disciples can propagate new Miracles coming from Jesus's Golden Handbook, all Disciples learned to read & write. This is how many who doubted the Power of the Jesus's Clan were converted to believing that **sharing Knowledge freely was the Way to go**! This Handbook was reproduced in many Copies so that all Followers can heal the Needy themselves. Christianity then took in new Turn: All can have the Power of Jesus by simply having a Pen(Write) and a Sheet of Paper(Read)!!

~ STUDENTS BECOMING TEACHERS ~

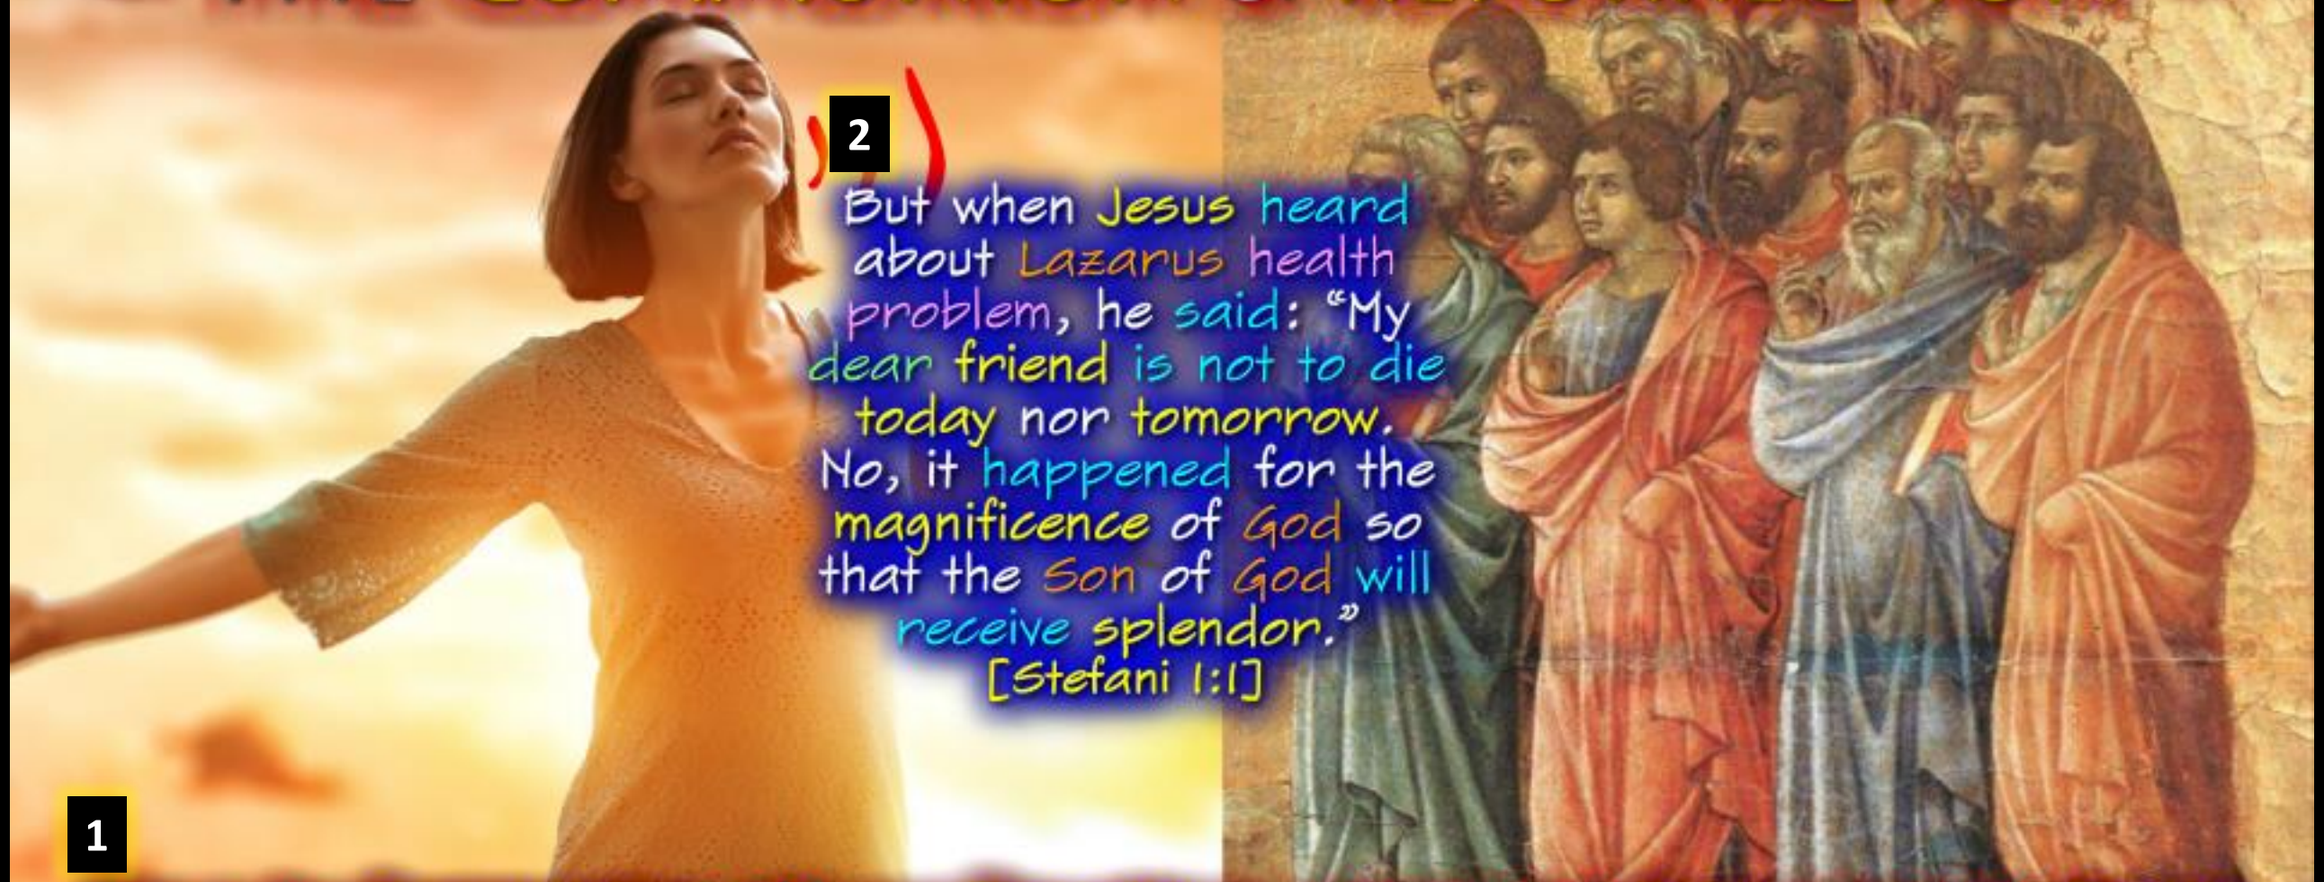

2

And Jesus answered: "All who do evil hate the light and refuse to go near it for fear their sins will be exposed. But those who do what is right come to the light so others can see that they are doing what God wants."
[John 3:20]

1

It was not **Jesus** himself that came back from the Deceased in Flesh but his **Spirit** that was in strong *spiritual* Bond with those who had *profoundly* loved him. The Students all shouted their Joy to be filled with the Wisdom of the Teacher, the **Christ**. The People were themselves starting to spread around the Teachings of **Jesus**. Many talented *distant* Followers imitated the Voices of the many Figures coming from the Parables with a theatrical *personal* Touch to bring a fresh Perspective on the **Good News**.

~ THE COMMUNION & RESURRECTION ~

2

But when Jesus heard about Lazarus health problem, he said: "My dear friend is not to die today nor tomorrow. No, it happened for the magnificence of God so that the Son of God will receive splendor."
[Stefani 1:1]

1

This is the **Communion**: add your Thoughts to a benevolent Spirit and create Beauty by your new *combined* Thoughts and spread your new Ideas by Speech and Action. By hearing the Words of the **Christ** through other Person Voices, this gave the Impression to those that cherished the **Lord** that his Being has been raised from the Dead. This is the Concept of the **Resurrection** defined by the **Ancient Testament**.

THE BODY OF CHRIST

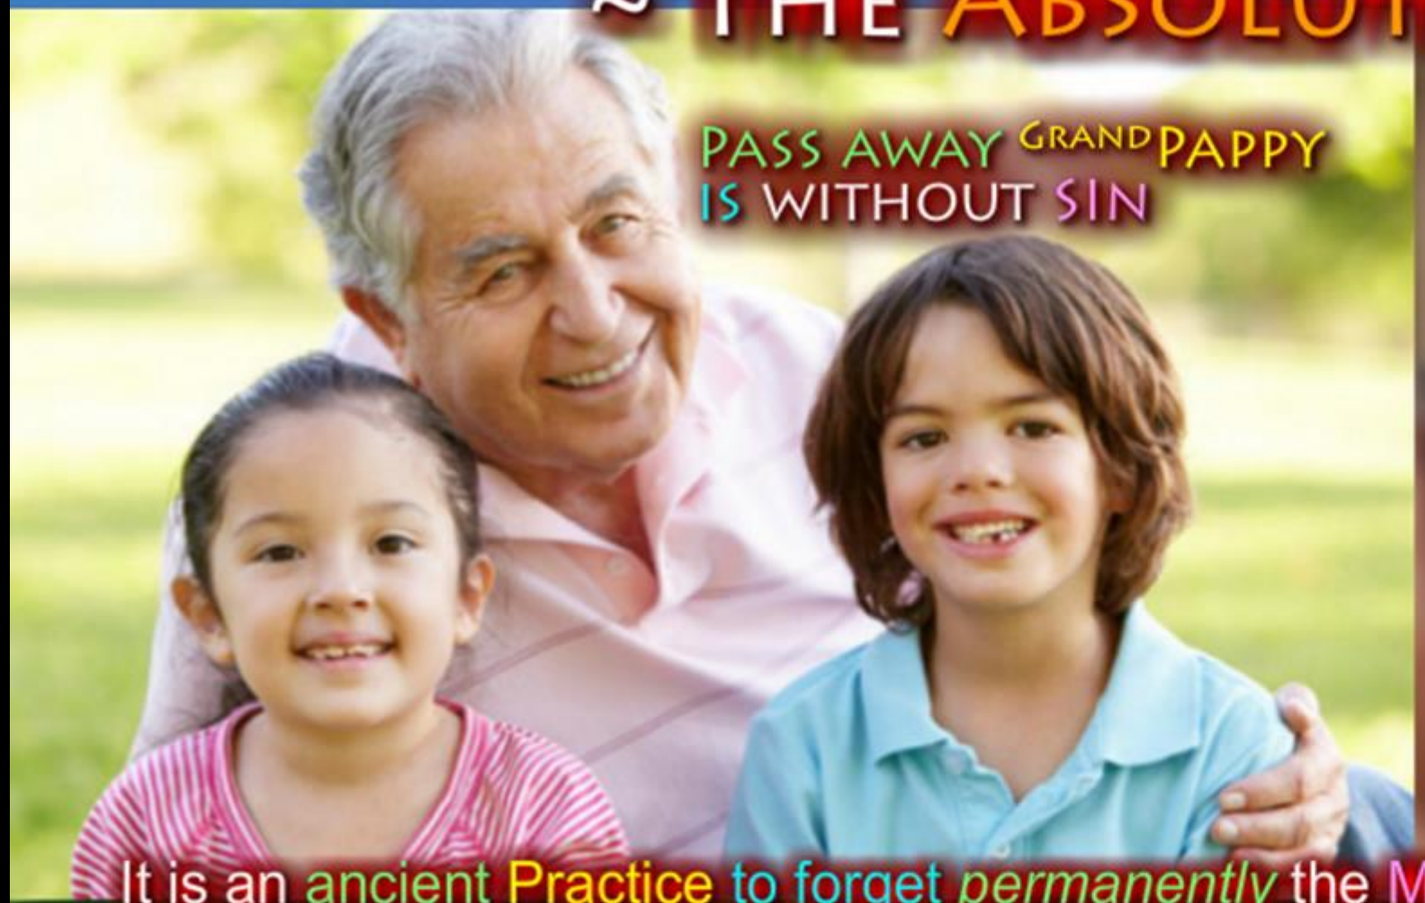

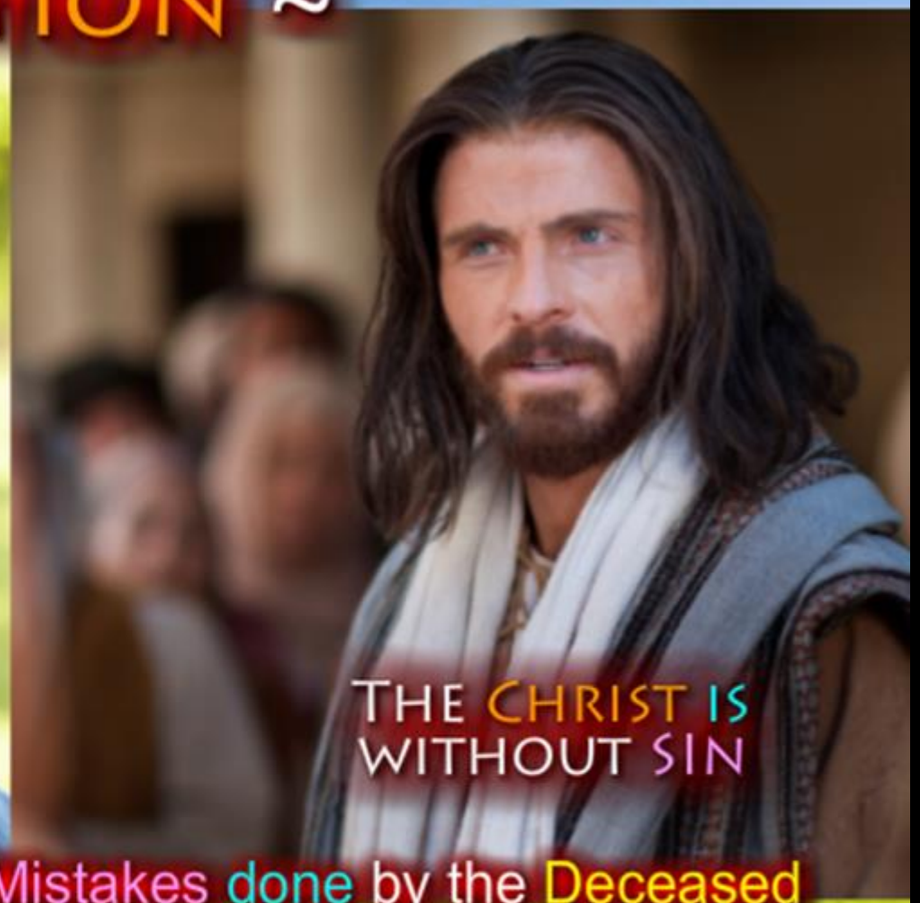

2 What we are actually reading in the New Testament is the spiritual bonding of Two Spirits: Jesus the Teacher and the Students, the Disciples. There are Two Minds in the works on every Verses of the synoptic Gospels. This is the full Richness of the Communion: We are Two: The Evolution of the Mind.

1 The **Disciples** had the highest personification Feeling coming from the **Christ**. For Ten Days, **Jesus** was burning inside their Minds and Hearts. In a quiet Part of the City of Jerusalem, the **Disciples** and dear Friends sat down and rejoiced around a warm indoor Fire with a good Meal heating-up. Those who spoke, stood up in the Middle of the Group and started to express themselves with Words inspired by **Jesus**. Each Interlocutor added their own personal Experiences to the Teachings of the **Lord** and this created a **new Wave of Thinking** .

History

~ The Absolution ~

It is an ancient Practice to forget *permanently* the Mistakes done by the Deceased so that his Family can remember eternally, the Moments of Cheerfulness that they had with him. Our Prophets' *few* **Missteps were removed from all Writings** describing their Mission so that we set an **Example of Perfectness** in them. You have all the Rights to tumble and when you get up, learn from your Mistakes and walk straight ahead by not repeating your Fault ever again!

Part of video clip **«A Transcendent Feeling»**

History

~ THE GLOWING MISSIONARIES ~

The **first Missionaries** that promoted the **Christ's Teachings** started their joyful Task when Jesus was still living. It was those that Jesus had cured from their virulent Illness as Leprosy, Paralysis and Blindness that were the Spare Head that announced that a great Philosopher and Healer was among them and this brought **Jesus** to the Ranks of **Superstar** in these luminescent Ancient Times.

~ Respect all Living Species ~

We do *never* measure the Intelligence of a Living Being by the Size of its Brain. As for Computer Chips getting smaller and smaller with Decades passing by, the more we evolve, our Brain Circuitry becomes *more compact* and *more performant* so comparing Intelligence by the Brain Size is an **major Error**. We are all of equivalent Intelligence from the Ant Kingdom to the Human Kind! By entering into communication with a Specie by respecting them First is the Door to an *enormous* Wealth of Knowledge.

GOOD FORTUNE

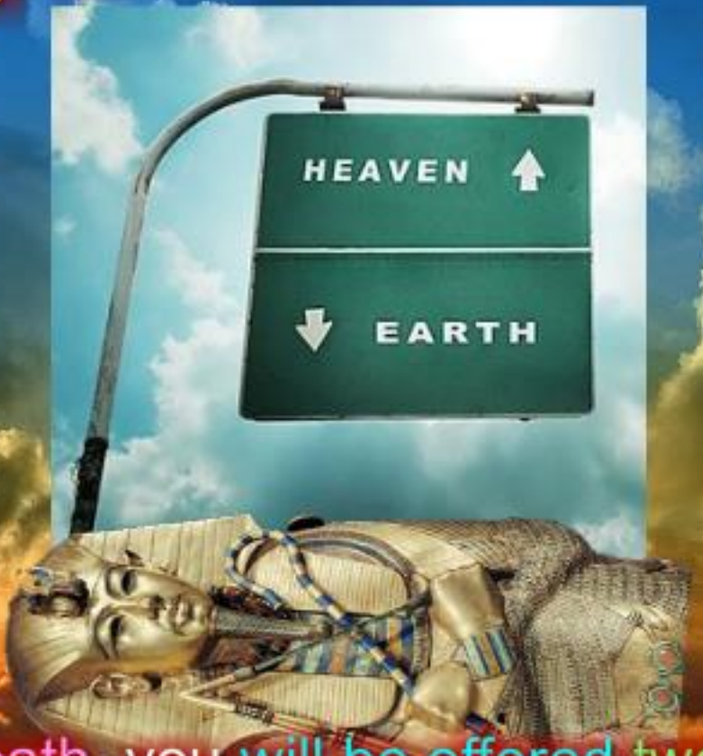

Our Animals have thousands of Years of Existence as for us the Humans. Our Pets have *much* Time on their Paws while not interacting with us. When a Creature can not speak as the Dogs, Cats and Rabbits, they communicate by **Telepathy**. When your Dog meets with a new four-legged Friend at the Park and then comes the Evening at Home, he will remember his new Relation and by thinking at his Friend's Face, he initiates a telepathic Call. They can then Chat on their great Day and be aware! They may talk about you in good Words and this will bring you good Fortune!!

What is Lupus?

Source: https://www.mayoclinic.org – https://www.webmd.com – https://www.ncbi.nlm.nih.gov

Lupus is a disease that occurs when your **body's immune system** attacks your own tissues and organs. We have inflammation affecting our joints, skin, kidneys, blood cells, brain, heart and lungs. Lupus arises at ages 15 to 44. Citizens of African, Asian, and Native American descent are *more likely* to develop lupus than are Caucasians. 90% of people diagnosed with the condition are women.

The illness origin

The **symptoms** of lupus are **similar** to the ones of a **severe vitamin D deficiency**. This mineral maintains the immune system. A daily 15-minute sun exposure enable the body to generate this nutrient. For lupus, our **epidermis** has a lack of zinc, vitamin A and vitamin K. The skin becomes too sensitive for daylight consequently vitamin D levels get very low.

Operation Defense

We need to increase **vitamin D** by enjoying *often* eggs, fish and mushrooms. A salmon omelette covered with Paris mushrooms does wonders for our **immune system**! Raw milk has low levels of vitamin D. But **pasteurized milk 3.25%** fortified with vitamin D is a valiant soldier!

Operation Epithelium

We need as well to increase zinc, **vitamin A** and vitamin K by consuming *each* day **three** glasses of **pasteurized 3.25% milk** to repair the epidermis. Furthermore, the casein protein inside milk reduces inflammation to our joints; a great pain reliever! Eat also bananas, carrots, sweet potatoes, spinach and lettuce. Reach **750 microgram**^{mcg} of vitamin A for the day: that is (3 x 125 mcg)^{Milk} accompanied with 375 mcg$^{Fruits\&Veggies}$.

Combined Operations

The skin will renew and we can ***gradually*** take more sunshine correcting our vitamin D deficiency. With a *once a day* 5, 10, 15, 20 minutes outdoor exposure added to an adequate intake of milk, bananas and carrots, **lupus** has a good chance to **fade away**!

Society

HE WILL AMAZE YOU

Do not wish misfortune to your enemy. Keep faith that his loneliness will make him understand one day soon, that his missteps caused you *much* harm.

In this time of revelation, Alan will execute *many* kind gestures so that he may accomplish, in secrecy, his redemption towards all. The beauty of the world will smile on him similar to our first *passionate* kiss.

This enlightened person will have a lasting respect for you: You have passed on to him **four** of your family's greatest values guaranteeing success that are [1] **respect**, [2] **tolerance**, [3] **patience** and giving a [4] **second chance**!

The wedding at Cana

The consumption of **alcohol** makes us ignore the analysis of our *upcoming* awkward actions and sentences. Learning from others, **Jesus** practices an empathic behavior. He reached the top because he goes straight to the point. His father Joseph advised him to cut **wine** *discreetly* with water so his mind remains sharp.

Written in the new testament while in the **Roman era**, Jesus is said to drink regularly. This is false. A correction in the scriptures was made to please the Roman followers whom they drank each day. We do not talk politics, business or religion under the influence of a politeness inhibitor that is alcohol.

Jesus took **three jars** loaded with water and mixed them with **six jars** half-filled with wine. He added fruits and sugar coming from the kitchen of the host. This wine is tasteful as a **sangria** low on alcohol. This **new beverage** brought colorful and respectful conversations during **the wedding at Cana**. This is known as **the miracle of the "Holy minds"**.

Part of « **The Chain Reaction** » video clip

History

YOUR HERITAGE

The synoptic gospels are accurate because the facts on Jesus's life were written down by educated apostles as the action was ongoing. These stories were archived daily in logbooks as military and ship captains were doing at that time.

Fifty years later when the persecution of the apostles faded, it was decided to make the biography of Jesus public throughout the Roman empire. A renowned publisher was hired and from there, the legend of the messiah took off.

Learning *many* things from day to day, leave a legacy for your children. Write your stories in notebooks. And once your princess is all grown up, share your scriptures with her so Claudia gets a head start on her competitors. Your faults and brilliant moves will give her great agility to boldly go where no daughter has gone before!

Spirituality

Making a disturbing comment on another one without his knowledge, the guardian angel of this person will share with our guardian. While sleeping, our angel will send us a parable revealing that a small misfortune annoying us will come-up soon! Next time while chatting, **hide the identity of the one you dislike** to please the guardians wishing you well!

Speaking well of a friend with whom you lost contact with, the halo of this person will surround you giving you joy. An individual who hurt you and that you want to forget, **do not say his name** when bringing up past events. The next day, you will prevent this person from entering your dreams and thoughts!

Society – Psychology

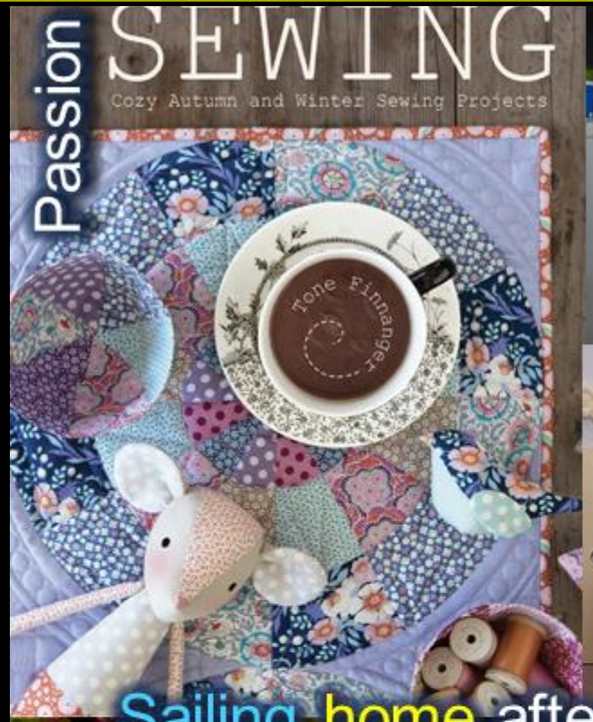

God the sun gives to his benevolent children, creative thoughts so they can invent objects to make lives easier. Before reaching neighboring stars, we *must* take care of nature and all its inhabitants. Then, we will have an evolutionary push that will open the door to first contact!

You do not make a blunder on a first occurrence of an annoying event. Our mind has an alarm with three components: action, memory and consequence. Action: eating much sugar. Memory: yesterday this gave me sleep. Consequence: loss of enjoyment in the evening. Ignoring this warning, you then have a genuine blunder!

Part of « **The Harvest** » video clip

Society

Sailing home after victory on Troy, **Odysseus** resisted the **call of the Sirens** that tried to bewitch him by entertaining him until he is *totally* forgotten. After your 9to5 day, **work on your passions** to amaze us so we remember your name and only then, reward yourself with movies, TV shows and games.

Once applauded by all for your feats, while having an unbounded ego, you will require that your ideas be carried out without *any* discussion. This is dictatorship. Being humble is listening and embracing your neighbor's advice and then acting accordingly so all can have *more* freedom. You then become king!

Part of « **The Harvest** » video clip

There is a **time for** [1]**work**: helping others to grow. A **time for** [2]**passions**: move profoundly our neighbors with our skills. A **time for** [3]**socialization**: spread our humor and confide ourselves to relatives. And a **time for** [4]**relaxation**: being alone reading, listening, watching, eating stuff we love since our teenage years. Balance this **weekly quartet equation** to radiate with satisfaction!

The initial step for *telepathy is to exchange with the subconscious of others: this is walking. Becoming more skilled, we communicate directly with the person's consciousness: this is climbing. First exercise: meditate and chat with your ancestors. You then gain knowledge: this confirms that the link is well established. This is ecstasy!

PHASE 2: THE CARBON MONOXIDE EFFECT

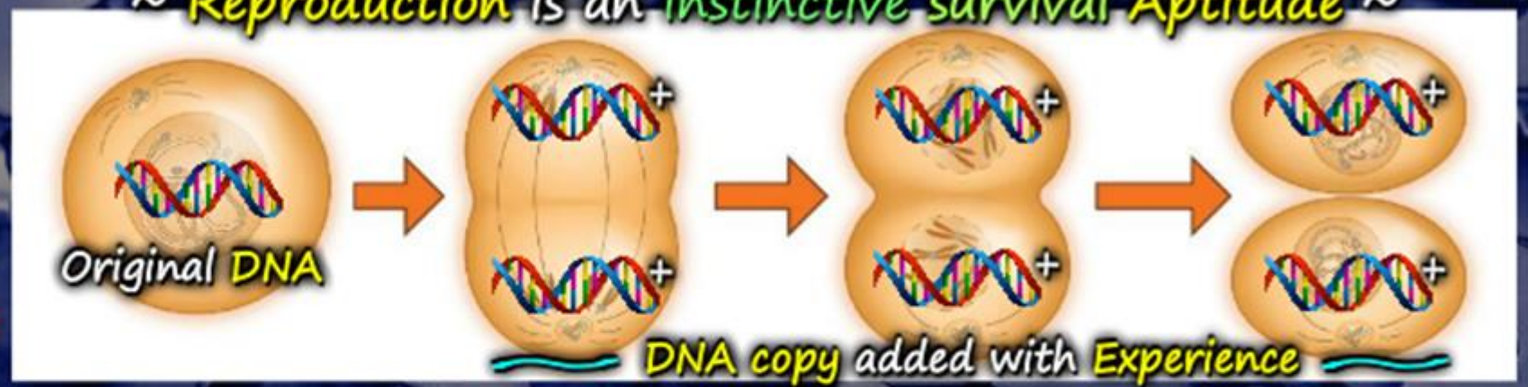

Driving *often* in heavy Traffic, **Carbon Monoxide** will enter the Vehicle. Children, Elderly and *long time* Tobacco Appreciators have limited Lung Filtration Capabilities resulting in an Increase of Carbon Monoxide Ingestion. Carbon Monoxide is one Carbon Atom attached to one Oxygen Atom = **CO**. The Cell needs Fuel to operate coming from breathing Oxygen. From the Blood, it will consume this Oxygen Atom for its Combustion Needs creating Power but at the same time, it will consume the Carbon since this Atom is *tightly* bond to the Oxygen Atom. And by consuming *repetitively* this Carbon Element *regardless* of the membrane State, this will **fill with Soot** the Interior of the Cell and it **will not be able to breath** on the long run and this will **damage** the Cell's **intellectual Faculties** *permanently* as its Memory used for **DNA Quality Control**.

DEFECTUOUSITY OF THE REPAIR BEHAVIOUR

[1]A Cell creates an exact Copy of its DNA in its Descendants with the Addition of its Experiences coming from the Cell's wide Memory that improved its Performance. This is the natural Evolution of the Cell as for all organic Entities that are more adapted for their *fast changing* Environment.

[2]If a Cell has Problems with its Memory, it will not execute any Actions inside the Organ because it does not remember its Life Purpose. The Cell's Reproduction survival Behaviour is driven by Instinct so it will keep on dividing producing an *almost* identical Twin of himself. These damaged Cells can not recognize if their DNA is intact. So they will not auto-repair neither will they call for help to let specialized Cells repair their broken DNA Sequence.

The CHECKSUM

Data Item In Binary	Checksum Value
0001	1
0010	2
0011	3
0001	1
totals	7

Human Inventions are a Reflection of Nature's Evolution Patterns. Computers use what we call a **Checksum** that is a Number coming from the Result of a simple mathematical Operation that verifies if all Bits sent by Fiber Optics remained intact during data Transfer. Each Cell has a Mechanism that ***also*** uses a Checksum engraved in the Cell that verifies if the **DNA Sequence** is ordered correctly. If the Cell is incapable of counting due to an impaired Intellect, this crucial Checksum Verification will fail to work adequately and the Cell's next Generation can have Defects inside them. This Malfunction opens the Door to **DNA Corruption** that creates **Cancer**. Also, the Cell will continue to reproduce *erratically* because it can not count so it is unable to do its **Self Destruct Countdown** that prevents spreading of DNA Defects into its Descendants.

~ ALL LIVING BEINGS HAVE EMOTIONS ~

The Human Brain is splitted into two parts. The first Half is the analytic Hemisphere that is used to support Logic as Science, Mathematics and for Problem Solving: This is the View towards the Sky. This is our Will to always search for Progress to ease our Existence. And the second Half is the emotional Hemisphere that has the Purpose to facilitate Interaction with our DynamicSociety: This is Earth. This is Family. This is Love. All Living Creatures on Earth have these two Brain Hemispheres going from the small singer Cricket to the very bright Human.

Spiders feel Frustration when we destroy their Web, their Home, and then run with great Fear when we try to squash them afterwards. Our Insects can *also* feel the opposite, deep Joy on the rising spring Morning when their Food Supplies are abundant all around them. Our Spiders experience Happiness and so do our farm Animals as Pigs, Chickens and Bulls.

~ The Influence of Hormones ~

[1]As a Human, while the Pregnancy is ongoing, great Quantities of **Hormones** regulating the Brain's Balance are transferred from the Mother to the Child. The Mother needs to be in good physical Shape to have a strong Baby and she needs to be well balanced psychologically to give birth to a Child that will *always* see the bright Side of Life. The Brain is *highly* influenced by the Hormones of Strength, Happiness, Sadness and all the Palette of human Emotions.

[2]The same Hormone Transfer Procedure is ongoing when we consume the Flesh of our Animals. It is the **Blood** that contains the Hormones thus the emotional State of the Animal before his Departure from Earth. If our Animals are not well treated while being raised to Adulthood, the Consumer will suffer from the ***same* negative Emotions** coming from the Animal as Depression after a few Hours of ingesting that scrambled Egg Breakfast. If the beef Producers did not care for the Animals **high level of Anxiety** while hearing ***clearly*** the Shouts of Distress of these Beings moving on the Conveyer Belt to meet their Fate that is to feed us, our Meat will taste **high levels of Anxiety** coming from the Hormones embedded deep in the animal's Muscles.

~ Having Respect ~

[1]We must treat our **Animals with Care** so that they, by sharing their **Hormones** through their Flesh, can transmit to us all their Joy coming from their past Life at the Farm. After that delectable Lamb Chop Meal, on our next Morning, warm Emotions will glow our Day at Work. The Arab Communities eat **Halal** and the Jewish Community eats **Kosher**. These two Ways to slaughter the Animal have the Quality to not stress this four leg Gift from Heaven giving us the most balanced of Foods for the Mind and the Body.

[2]Before purchasing halal and kosher Meats, there is an extra Step that must be taken: it is our Duty to find out if our Meat Producer treats his Animals with Respect feeding them with **Quality Foods** and giving them ***plenty* of room to move** inside their clean Stables as well as giving them **Freedom** to enjoy a sunny Day in the farm's large outside Pastures. As we, our Animals feel deep Pleasure when the Sun warms-up their Skin under their short Fur. The **Farmers** that exercise these caring Gestures come from **noble Families**. They have our utmost Respect! This kind of Meat full of Hormones transmitting to us a Life lived in Harmony is what is needed to recover from our Diseases that provoked our psychological Distresses and provoked our Diseases that creates our unwanted Muscle Contractions.

~ Enjoing the Hunting Season ~

[1]Meat originated from Hunting works Wonders for our Health. The Animals in Nature **do not suffer from Depression** as our caged-for-life Chickens. They are free Minds thus healthy psychologically and they nourish themselves with the Fruits of the Forest thus their lean Flesh is devoided from *many* cloaked farm animal Diseases that get transmitted to the Humans as the Mad Cow Disease. This Transmission Disease Phenomenon is known as **Zoonosis**.

[2]The Animal feels frighten for a short Period of Time while being hunted. The golden Hunter that hangs his Prey and bleeds it before dismembering it is a fine Practice. This way, the high Level of **fear Hormones** contained in the Blood of the Animal's last minutes of Life are *mostly* eliminated before freezing the Catch giving a **Meat of Top Quality** freeing us from *many* unwanted Side Effects.

[3]Our Animals are precious. Having **Empathy** for their Wellbeing is the Best Way to secure good Living Conditions for them so they can spread their Joy to us by the Gift of their Flesh. **Slavery** was abolished **140 years ago**. **Animal Slavery** will end in this early 21st Century! That is our **united Promise**!!

~ The Field of Memos ~

Lucien of Canada

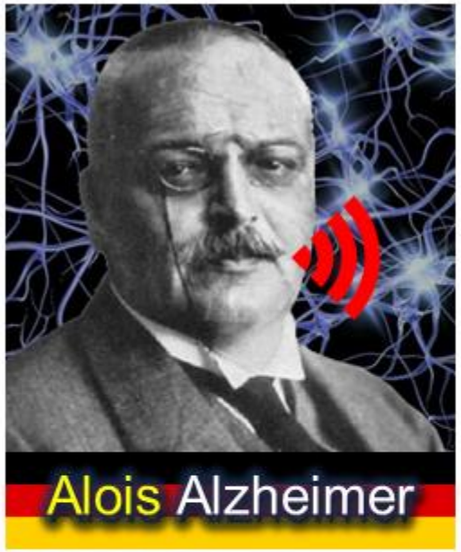

Our Memories are born the same Way as a Field of Sunflowers. Every Flashback behaves as a Flower. In the Center of this yellow Plant is the Neuron that recorded a Smell, an Emotion, a Caress on the Skin, an Image, a Sentence, a Word or a Musical Extract. This nerve cell Flower has many Petals, and each of them correspond to Coordinates to another Memory.

~ More Details channel more Oxygen ~

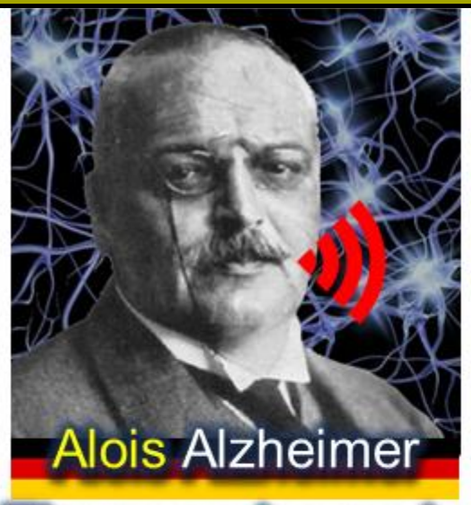

When looking at an Image from a reflector Telescope, we are magnifying the Lens on a Section of the diagonal Mirror to distinguish Features on a celestial Body. These Elements have less Brilliance set on them consequently are difficult to see. In the same way, the fine Details coming from our Memory require an Increase in Oxygen (Light) so we can access them. This Increase in Clarity can be reached by going through Hypnosis so we can understand the Cause of a Traumatism. Or our Subconscious can expose these archived Details while we dream. During the Night, our playful emotional Hemisphere presents to us in our Dreams Parables that we need to decipher so we can figure out the Reasons why we had a chaotic Day!

The Oxygen Powering Tree

The powering up in Oxygen of our Information Retention Capacity works *identically* as the Sap feeding a Tree. Within the Brain, at the root Level, we have the Semantic Memory that corresponds to the Facts as the Capital of Florida is Tallahassee. At the same Plane, we have the Implicit Memory like the Movements remembered on how to ride a Horse. Further above inside the Trunk, we have Recollections of children playful Times at the Bottom and as we climb higher towards the Branches, today's Thoughts emerge.

The Immediate Memory: The RAM

Within the Brain, we have specialized Neurons retaining Events for a short Period of Time. As for a Computer, this constant-in-size Location is the RAM. If your current Life Experience is considered worthy to be kept by your Analytic Hemisphere, this Moment will be copied inside your expanding long-term Memory.

This organic RAM region has a Persistence Limit. It can conserve our Thoughts for three hours or can preserve them for a brief five minutes depending on its Procurement in Oxygen. For the ChroNeuroDegen Patients, this RAM zone, positioned at the Treetop, has its Oxygen Levels steadily drying out. The Migration of Information in the long-term Memory will very *often* not occur due to insufficient time to execute the Duplicate Operation.

~Return to Innocence~

At our last Breath, before going to Heaven, the Tree providing Oxygen dries up abruptly. This produces a fast Succession of Memories flashing through our Eyes, starting from the previous Month's Events up until our young Children Days with Mother at our side. These Moments are saturated with warmhearted Emotions. At the End of this exceptional Trip, we are ready to join our Family Ancestor Spirits living in the Minds of our Loved Ones. This is our Renaissance. Our return to Innocence.
